

A passion for great English flooring

Lincolnshire Limestone Flooring, masters of stone

Lincolnshire Limestone Flooring is a family run company specialising in the production of indigenous English limestone tiles and flag stones. Lincolnshire stones are our drive and passion; the low porosity and durability, along with the neutral tones means our products have been, and remain, timeless in appearance and provide an eco friendly limestone floor to suit any property or decor. Bringing a lifetime of experience and knowledge working with stone we are able to apply skills from our expert craftsmen to produce anything from a sleek classic honed tile to an aged flagstone.

Our products began being distributed 12 years ago to the local market we have grown into a company that has exported to various countries overseas and delivers beautiful limestone floors nationwide. Recognised by architects, interior designers, building contractors and various retail outlets as a highly valued supplier of Lincolnshire limestone because our strategy remains the same today as it did 12 years ago - consistent reliable service goes a very long way. Despite

the recent economic downturn our business is still thriving. Our material finds its way into anything from a country cottage to a grand estate hall - and Norfolk and Suffolk seems to have both in abundance. The diversity of the finishes that we apply to our stones means that we can match the character of a period property with the limestone that you can lay in your hallway, kitchen, orangerie, dining area or bathroom.

Size and format of tiles or flags can often be a big decision with 400mm and 500mm widths x random lengths being our most favoured layout and a very traditional layout also for

English limestone floors. Sizes often are determined by room size of which we are happy to advise all clients on. A stone layer can often be a very different trade to a tiler, limestone, like most natural products, is porous. We use and supply all materials for installation - the sealing products that we find

work best with our products is Lithofin stone sealants. A stone layer really earns his salt when sealing stone and, if done properly, and maintained by our guidelines, your new Lincolnshire Limestone Floor will be a very low maintenance and beautiful floor covering for many years to come.
